12 February 2021

Dear Resident,

I would like to invite you to be part of Voices of Australia, an important national study about current social issues.

**Voices of Australia was designed with the help of Monash University researchers. It aims to capture the views of our diverse Australian community and influence key decision makers and policy in Australia.**

To ensure your voice is heard, just complete the 15 minute online survey. For direct access, scan the QR code using your mobile or tablet, or visit the website and enter your unique password.

[www.srcentre.com.au/voices](http://www.srcentre.com.au/voices)

Password: 123456

**In return, we will share the results with you. We will also email you a Coles e-voucher at the end of the survey as a small token of our thanks.**

We are an independent organisation dedicated to social inclusion. You can find examples of our previous reports on our website ([www.scanloninstitute.org.au](http://www.scanloninstitute.org.au)). The study is being conducted by the Social Research Centre on our behalf in line with the Privacy Act 1988 (Cth).

Participation is entirely voluntary and your responses are completely confidential. More information is provided in the enclosed brochure or at [www.srcentre.com.au/voicesofaus](http://www.srcentre.com.au/voicesofaus). If you have any questions, or would like to opt out, please call 1800 023 040 or email [voices@srcentre.com.au](mailto:voices@srcentre.com.au).

Thank you for helping us share the diverse views of the people of Australia.

Yours sincerely,

Anthea Hancocks  
CEO, Scanlon Foundation Research Institute

Andrew Markus  
Emeritus Professor, Monash University
